## MetaTrader 5 for Android

The MetaTrader 5 for Android can be used on a smartphone or a tablet PC powered by the Android 5.0 or higher. In addition, to connect to a broker's trading server, Internet access is required.

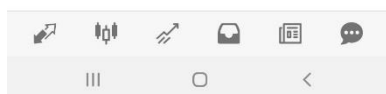

It is recommended that you update MetaTrader 5 regularly, which will provide enhanced features and greater stability.

In order to start trading from your mobile device, download MetaTrader 5 from the application store [Google Play](#) or by using the Google Play application on your device.

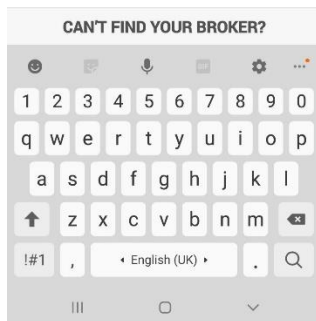

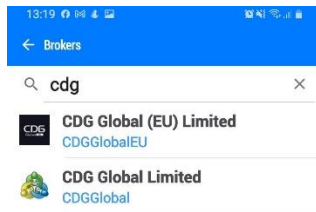

After installation, run the application by tapping the icon  on the screen.

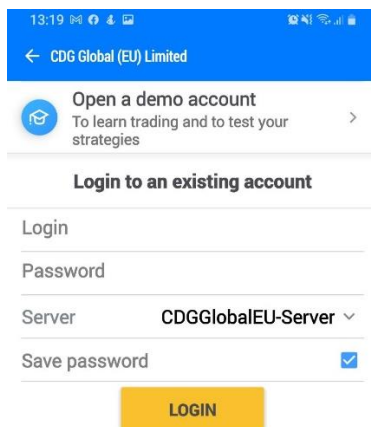

MetaQuotes will automatically open a Demo account. In order to connect with our Real and Demo server you need to add your account on the application by pressing the "+".

Now please write down the text “cdg” and select our broker CDG Global (EU) Limited as your broker.

Please select your preferred server Real or Demo and then insert your account credentials in order to login.

Once you logged in successfully you are ready to trade!
