

MetaTrader 5 WINDOWS INSTALLATION MANUAL

MetaTrader 5 for Windows

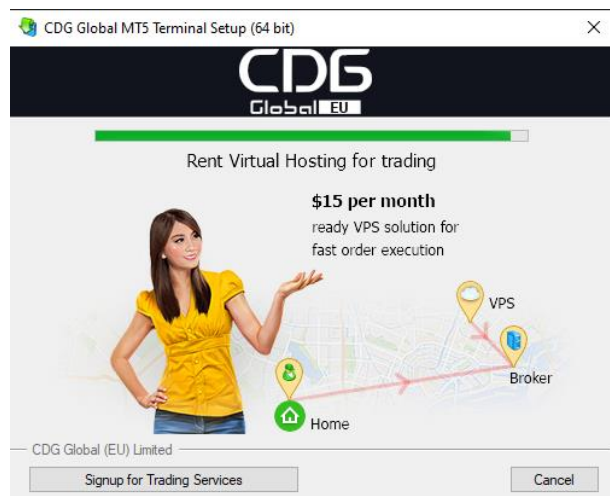

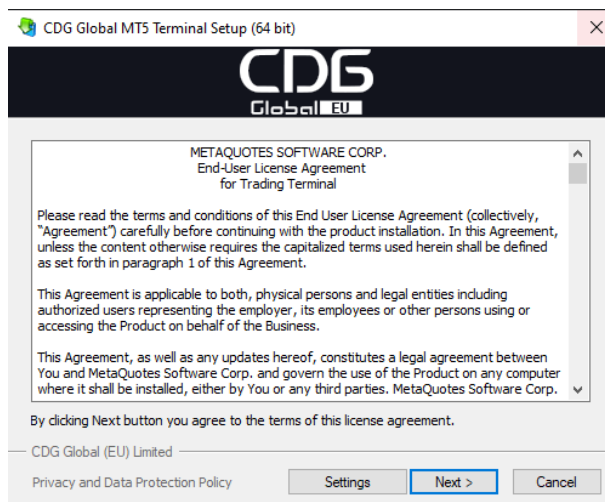

System Requirements: Windows Vista/7/8/10

How to install MetaTrader 5 for Windows

1. Login in your CDG Global (EU) account, visit MetaTrader 5 section and Click “Download MT5” to download the installer setup file.

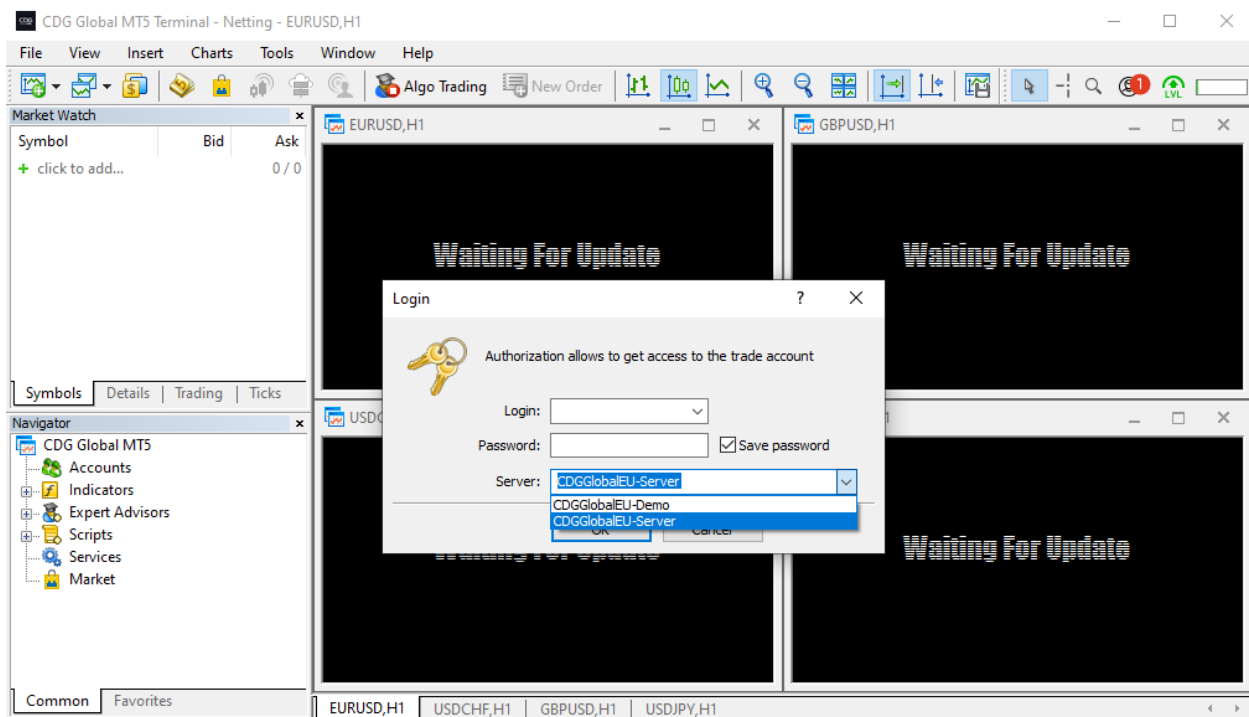

2. Install CDG Global (EU) MT5 Terminal by clicking cdgglobaleusetup.exe file. Depending on system security settings a security window may appear asking for action confirmation. Press "Yes"
3. Read carefully the End-user license agreement and then click “Settings” to select the installation path then press “Next >”.

4. Once the installation process is finished press “Finish”

5. Login to MetaTrader 5 using your Real or Demo account credentials.

6. Finished. You are ready to trade!
